

Patient Name _____ Date: _____

Score

Orientation

Day _____ Date _____ Month _____ Season _____ Year _____
 Floor of building _____ Suburb _____ Town _____ State _____ Country _____

5

5

Registration

Name three objects (e.g. "apple", "table", "penny"): One second each. Ask patient to repeat all three. One point each. Repeat until all 3 items are learnt but only score the first attempt. (Recall is tested later.)

3

Attention & Calculation

EITHER: Serial 7's (93, 86, 79, 72, 65). One point each. Stop after five answers.
OR: Spell "world" backwards. One point for each letter in correct order (D_L_R_O_W).

5

Recall

Recall the three previous words. One point each.

3

Language

a) Show the patient a watch and ask what it is. b) Repeat for a pencil.

2

Repeat: "No ifs, ands or buts."

1

Follow a three-stage command, as per instructions.

3

Read and obey the command printed below: "Close your eyes".

1

Write a sentence, it must make sense, ignore spelling.

1

Praxis

Copy the design below. All ten angles must be present and two must intersect to form a four sided figure to score one point. Tremor and rotation are ignored.

Cognition Assessment

Ask the patient to draw a clock face displaying 'ten minutes to 3 O'clock' in the circle provided below.
You may repeat the instructions as many times as required, however do not assist the subject in the drawing.

Please fold over these instructions before giving to patient.
